Our Infrastructure

There is an abundance of Microsoft Exchange services available today. While many competitors claim their services are incomparable...Egomedia offers security and peace of mind, redundancy, 24/7 monitoring & alert along with the reliability of the premium infrastructure and advanced Managed Exchange solutions. Our Managed Exchange datacenters are connected together through a high-speed backbone to form a cloud based on VMware virtualization platform for maximum reliability and are secured with physical and software firewalls. Each element of our infrastructure is redundant in order to insure proper load balancing and failover in the event of a major incident.

EGOMEDIA'S Managed Exchange Infrastructure is mounted in 4th tier level data center that conforms to the highest industry standards (Sarbanes Oxley and HIPAA). Actually, choosing a Managed Exchange Service with EGOMEDIA is choosing performance, security & flexibility. A luxury that is accessible to all and guaranteed contractually.

EGOMEDIA reinvents and democratizes on line messaging with Managed Exchange.
