

ONLINE BACKUP

THE NUMEROUS STUDIES CONDUCTED ON THE SUBJECT ARE UNANIMOUS: BACKING UP FILES REMAINS A WEAK POINT IN CANADIAN BUSINESSES. AS A RESULT, THE NECESSARY INVESTMENTS IN ORDER TO AVOID ANY MAJOR DATA DISASTERS ARE OFTEN PROHIBITIVE.

There exists however, an alternative that delivers the same excellent results, but is more cost efficient and tailored to your company's individual needs: Online Backup

EGOMEDIA'S Online Backup Solutions provide several levels of service :

++

■ Work Stations

■ Servers

■ Branch Offices

■ Laptops

Our solutions

Regardless of your data volume, our range of online backup solutions reinforces and rationalizes the protection of your information.

Furthermore, the procedures put in place by our IT security cell, allows for the client, and only the client to encrypt and decrypt their most sensitive data. An additional pledge of total confidentiality.

Through our high performance infrastructure, equipped with the most up to date IT security technologies, we can meet the requirements of even the most demanding continuity of services.

You will benefit from our instant recovery option and objectives of improved recovery points for up to 30 days.

Moreover, the redundancy of your saved data, on a remote site, is a fundamental principal of your succession plan that you cannot neglect.

Fire, theft or water damage... These disasters will no longer be a threat to the safety of your data thanks to this double security measure.
